### **FIRST AID & CARE CLASSES FOR MAN'S BEST FRIEND!**

(HERNDON, VA) .... Your pets, just like children are at greater risk of death or injury from preventable accidents than any other reason. Taking the correct proper actions can significantly increase the chances of survival and reduce the extent of injury to your pet, before transporting them to your veterinarian. Ines de Pablo, owner and founder of Wag'N Enterprises, LLC is now offering Pet Tech's pet first aid and care classes for pet owners: PetSaver™. "An important part of being a caring, conscientious, responsible and loving pet owner is knowing the life saving skills of pet CPR, first aid and care.", De Pablo said.

De Pablo is a PetTech® certified instructor and is and is qualified to teach the Pet Tech family of programs. The eight-hour PetSaver class includes the skills and information necessary to prepare the pet owner in the unfortunate event of a medical emergency involving their pet. Some of the topics highlighted in the class include: CPR, Rescue Breathing, Shock Management, Bleeding Protocols, Injury and Wellness Assessments, Heat Injuries, Cold Injuries and dental and senior "pet-izen" care. Wag'N Enterprises also offers the following 2 hour workshops: Caring for Your Senior Pet-izen™, Dental Care for Your Pets™ and the Knowing Your Pet's Health™.

"Doggie" or "Kitty" breath is not normal and is usually a sign of poor oral hygiene that should be addressed promptly. Dental Care For Your Pets teaches pet owners the many aspects of caring for their pet's teeth. Pet owners will learn how to properly brush their pet's teeth, choose safe toys and healthy food snacks and work with their veterinarian to assure good dental health. "Now pet owners can learn pet first aid and care and give their pets the best care available", de Pablo noted.

On the average, pets (dogs and cats) seven years and older are considered senior "pet-izens" and are at risk for age-related health problems. In Pet Tech's PetSaver class, pet owners will learn the risk factors associated with older pets, proper exercise plans, diet and nutritional choices, and the things they should be doing for senior pet-izens and the things they should not be doing for pets in their golden years.

For more information or to sign-up for one of our classes, call or visit the Wag'N website at [www.WAGN4U.com/PetTech](http://www.WAGN4U.com/PetTech) or call Ines De Pablo at 703.787.
